

### **IncrediBack E2613/E2614**

The standard IncrediBack is best for the wheelchair user who needs the support and comfort that a normal sling back cannot provide. The standard IncrediBack is angle and height adjustable. Moldable option folds with wheelchair.

### **IncrediBack Rigid**

Designed for the user who requires a solid reclining support in a wheelchair back. The Rigid Back offers adjustability in both height and angle.

### **IncrediBack Tall E2613/E2614**

Designed for users who need more neck and head support than the standard IncrediBack offers. The Tall Back comes with a moldable headrest and an optional Head Stabilizer support. Moldable option folds with wheelchair.

### **IncrediBack Rigid Tall**

Designed for the user who requires a solid reclining back along with extra head and neck support. The Tall Back comes with a moldable headrest and an optional Head Stabilizer.

### **IncrediBack Deep E2615/E2616**

Designed for the user who needs strong trunk support, the IncrediBack Deep Back boasts wide moldable lateral wings that aid in keeping the user upright and positioned correctly.

### **IncrediBack Tall Deep E2615/E2616**

Designed for the user who requires a solid reclining back along with extra head and neck support. The Tall Deep Back includes moldable wings for customizable lateral support and a moldable headrest for extra head and neck stability.

### **Solace fabric (Cover)**

designed for pressure relief and comfort. The fabric's multi-dimensional stretch alleviates pressure on boney prominences. Soft to the touch, the anti-microbial fabric is fluid-proof and easily cleaned
