

STRETCH-AIR FABRIC

Designed for air transmission and heat reduction. This two-ply, breathable laminate combines a high-stretch lycra top layer, a layer of reticulating foam, and a waterproof, breathable vapor barrier.

COMFORT-TEK

Engineered for pressure relief and comfort, Comfort-Tek's multi-dimensional stretch alleviates pressure on bony prominences. It is fluid-proof and can easily be cleaned with detergent.

HARDWARE MOUNTING

NEW Compass Hardware Mounting System is fully adjustable for height, depth, and angle of recline. All adjustments can be made while user is seated in the wheelchair, eliminating the need for multiple transfers during the fitting process. Hardware may be installed in minutes, and quick-release feature allows back rest to be removed in seconds. Fits 3/4", 7/8", and 1" tubing.
